Elementary Student Pick Up Change

Beginning on Tuesday, September 12, 2023, we would like to make a small change to the elementary student pick up directions. This is due to the increased number of vehicles and the line extending past the crosswalk and College Street. There is also not a lot of room past the crosswalk for vehicles to get off of the roadway past the crosswalk. To remedy the situation, we would like parents to line up along College Street once the line on Z Highway is to the crosswalk. We thank you for your cooperation and helping to make sure our students and community are safe. Below is the diagram of the route we would like to have parents to take to pick up elementary students. If you have any questions, please call the school.

Sincerely,

Rick Calloway

USR2 Superintendent
